

Key Messages

As an Affiliate or Chapter member we often are asked the question: “*Why should I join IAP2 - what’s in it for me?*”

The IAP2 community promotes an ongoing dialogue on these questions (it would make a great event in itself).

As IAP2 leaders and champions we *are required* to provide answers to these questions!

Here are some of the responses that have come from these conversations:

- ‘IAP2 offers a community of P2 practitioners and supporters with a common vision’.
- ‘IAP2 is all about decision making and making the most of community input’
- ‘Be guided by IAP2 core values: promote integrity and robust decision making’
- ‘IAP2 Core Values will guide the decision making process and deliver sustainable results’.
- ‘IAP2 will connect you with people who support good decision making processes’.
- ‘IAP2 brings integrity to decision making process - build your reputation as a leader in P2 practice’.
- ‘Join a growing community of P2 practitioners and champions who share common values’.
- ‘Demonstrate your values and commitment to good P2 practice, become an IAP2 member’.
- ‘IAP2: values based and grounded in practical *hands on* processes’.
- ‘IAP2 can keep bridge the gap between people and policy makers. Build confidence in *how* decisions are made’.
- ‘IAP2: brings value for time, effort and money to the business of P2’.
- ‘IAP2: we have the skills, knowledge, resources and best practice methods to assist your (water/ planning/ policy/ education/health) projects to deliver sound results’.
- ‘IAP2: a community of committed people from various parts of the world - building our experience and knowledge’.
- ‘IAP2 involvement will strengthen the link between your project planning and community involvement. A better outcome for all’.
- ‘IAP2 can help you integrate P2 into planning process and deliver a stronger more sustainable outcome’.
- ‘IAP2 can help you to understand how the community can seriously add to the decision making process resulting in a more supported outcome’.
